The City Dads Raked Over the Coals-The Pan-American Congress Invited to Visit Salt Lake City.

The real estate exchange put its "jumpers' on, opened the throttle wide open and swung the train of Salt Lake commercial interests at the rate of sixty miles an hour.

The exchange took THE HERALD's advice of ss speech making and more business, and

while the lagging city fathers were cuffed gainst the grain.
The exchange has been heard from, and Salt

Lake "moves." The forces have been slow in shalling but having got "a good ready on" accomplish its destiny—to stir up the ers that are lying dormant and set them to

work.

For three months Salt Lake has beemed without an effort—without a penny's worth of advertising abroad, and of its own inherent advantages over all competitors. This is now to be supplemented by a systematic scheme of presenting these advantages to the world by a certifinate mothod of advertising, that the people desiring to be informed may be enlightened. It was a ratiling good meeting of carness business men united for a common purpose, linked together by the ties of mutual benefit and to operation.

nose then there for a common paper.

The preposition of Mr. Conway, of Conway, Cole & Waterman, to start a house renting agency, by which any person desiring to rent a house might be taken over the city, was discussed, but no definite action taken, as several members of the exchange scemed inclined to hang to a small share of the business on their own account. Mr. Conway simply asked the good will of the exchange in this matter, that the house renting business, which is now scaltered might be concentrated and the applicant asvect the turned of visiting all the real estate offices in the city.

B. Van Buskirk introduced a resolution to amend the by-laws so that a real estate agent of a firm with a membership on the exchange could attend the call meetings.

This proposition met with opposition, and went over until the next meeting.

On motion of Jusige Lynch, the president of the exchange was instructed to appoint a conference committee of three to confer with the city council, the clamber of commerce and the mining exchange on matters of importance to the material interosts of the city. The committee was not named.

Mr. Whalou paid his respects to the chamber of commerce by saying that other boards of trade thought nothing of raising \$50,000 to en courage manufactures.

Judge Lynch said that manufactures will cut a big future in exchanges business and that a special committee should be appointed for that purpose.

Secretary Gillespie, after passing his compliments to Mr. Whalon by remarking that if anybody wanted to punch up the chamber of commerce he should do so from the inside, "Get on the inside and poke" he said with much sarcasm. Having poked up Whalon, he said that the chamber of commerce had not been life but had secured seventy eight new members since February, which meant a great deal of money to help build up Sait Lake.

"We have made a contract with the Western Migration burean for distributing 10.09 blotters monitally among the hotels and banks of the country, and \$2,000 cards on the trains leading into Chicago, with the privileger of maning 1,250 hotels on which the advertisement of no other city should appear." The secretary said that the chamber of commerce had examined very licesily into this scheme and were satisfied it was a good one and worth the money asked, \$1,500. If the exchange paid one third the expense the chamber of commerce would foot two inside an appropriation for that purpose without a notice to all the members, ten members for the exchange paid one third the expense the chamber of commerce would foot two inside an appropriation for that purpose without a notice to all the members, ten members for the exchange paid one third the expense the chamber would attend to this itself. PAN-AMERICAN CONGRESS.

The chamber of commerce in conjunction with that of Denver had issued an invitation to the Pan-American congress to visit Sail Lake, and as these dignitaries were to go as far as Galveston, he thought they would likely come to this city before returning. He also made mention of the convention of passenger agents that are to visit this city in June.

After raking the city council over the coals for the shameful condition of the streets, the exchange adjourned to meet next Wednesday evening.

Captain Dayis is getting up a steamboat com-pany to build a \$25,000 heat on Salt lake, to carry 1,500 passengers. The length will be 125 feet, beam 35 feet, with an open deckle for danging. It will draw 25 feet of water. Captain Davis proposes to noid all exercisions over at this point and to take them to Mueral point and connect with the Central Pacific. There are valuable mines on the Islands, that, if worked, would give the boat plenty of freight all the year.

What It Costs to Live.

A number of bachelors were discussing the price of living in Roberts & Neiden's drug store. Mr. Waterman had just remarked that he could not get on with the world for less than \$1.76 a year, and kept thin at that, when Dr. Simpson came up, "How much of a family have your asked

A Gentleman Wishes to Start a Company with \$500,000 Capital.

forming a stock company for the purpose of manufacturing a number of his inventions. One of the advantages of the stove range is an instantaneous chimney cleaner, whereby all scot can be removed without any trouble or flying dir, which is the bane of the kitchen.

The proposition is to form a stock company with a capital stock of \$500,000 divided into 101, 100 shares of \$5 each, the inventor to take 51 per cent, of the stock.

Only sufficient stock shall be said to commence operations and several in working order and pay running until goods are made and placed on the market. The balance of the stock to be treasury stock.

The concern will require five acres of ground for its buildings.

The same party is in correspondence with the chamber of commerce, but so far has not got down to a proposition favorable enough for our business men to take hold. Few men will take stock in a company where the inventor owns a controlling interest, for the reason that it is not nusiness. Inventing and managing require different kind of heads.

We offer that splendid business site, northeast corner of Main and North Temple streets, 115 1-2x165 feet deep. Price Three Hundred Dollars per foot front, and on easy terms. Beyond doubt this is the best purchase that can be made, as this part of the city is looking up every day. Remember, this is situated one block this side of the French Flats costing Two Hundred Thousand Dollars, to be erected at once, and only one block from the Zion's Savings bank building, the land for which cost Eighteen Hundred Dollars per front foot. Call and see us before the bargain is taken.
